

In Versailles, May 16 - 2025

To whom it may concern:

I undersigned, Mr. Hernan POBLETE, CEO of the French company Supervision Holding, named EVENT MEDIA Since December 2024, am pleased to confirm my satisfaction on the cooperation that I had with Mr Oleksandr Pasichnyk on our recent works for the Paris 2024 Olympic Games and Paralympic Games.

My company had an important contract with the French group GL Events and Mr. Pasichnyk managed on my behalf the operations at the ground level.

Kilometres and kilometres of power cables and hundreds of electric control boxes were installed by Mr Pasichnyk and our team in order provided the necessary power to hundreds of areas and rooms in the five Olympic sites that we had under our control.

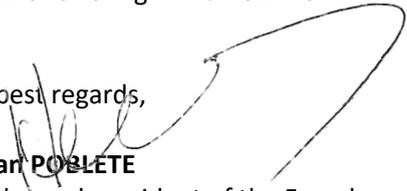

Thanks to his commitment together with his colleagues all the installations were delivered on time, and we contributed to the success of the games.

I worked with Mr. Pasichnyk for the first time at the European football championships in Ukraine in 2012, and since then we have cooperated regularly in a series of major international events such as the Winter Olympic Games in Sochi, the EURO 2016 in France, several Formula One Grand Prix, the 24 hours of Le Mans, and more than 50 major French and European events in sports and culture.

Mr. Pasichnyk has an extraordinary capacity to manage and control activities in different areas of the event industry, going from electronics to mechanics, from machinery to hardware.

I will be more than pleased to have a conversation with anybody interested in knowing more about him in view of offering him a new work.

with best regards,

Hernan POBLETE

Founder and president of the French company Supervision France from 1984 to 2022

CEO of the French company Event media
